

YANG Jingcan (杨井璨)

E-mail: anorke@163.com

Address: Zijingang Campus of Zhejiang University, No. 866, Yuhangtang Road, Xihu District, Hangzhou City, Zhejiang Province, China.

EDUCATION BACKGROUND

Zhejiang University

Doctor of Philosophy (Candidate)

Major: Foreign Linguistics and Applied Linguistics

City University of Hong Kong

Master of Arts (with Distinction)

Major: Language Studies (General Linguistics stream)

GPA: 3.59/4.30

Capital Normal University

Bachelor of Arts (with Honor Program)

Major: Chinese International Education

GPA: 4.01/5.00 (equal to 90.1/100)

PUBLICATIONS

2025

On the Argument Structure without Overt Predicate in Nominal Phrases

Independent author

Accepted by the 11th International Conference on Formal Linguistics (ICFL 11),

Semantic and Syntactic Study of the Separable Potential Complement Construction in Yanshan Dialect

《铅山方言隔开式能性述补结构的语义和句法研究》

Second author, with Zhouxin WU

Accepted by Doctoral Forum of Tsinghua University, 2025

2024

On the Grammaticalization and Semantic Evolution of Ji in Archaic Chinese

《試析“幾”字的語義演變與語法化》

Independent author

Accepted and published on proceeding by the 2024 Doctoral Conference on Chinese as a Foreign Language of Peking University.

DOI: 10.26914/c.cnkihy.2024.010283

SUMMER SCHOOL

Linguistics Institute of China

07/2024 – 08/2024

Excellence Award of The Core Course Program

With full marks in syntax

Linguistics Institute of China

07/2025 – 08/2025

The Advanced Seminar Program in Children's Language Acquisition

ACADEMIC EXPERIENCE

Biolinguistics and Brain Sciences Laboratory

Beijing Language and Culture University

06/2022 – 06/2024

Research Assistant

Supervisor: Prof. Si Fuzhen

Project: On Language Acquisition and Cognition from the Perspective of Syntactic Cartography

Main Work: Design and operate neurolinguistic experiments based on

Electroencephalogram (EEG) and perform statistical processing on experimental data

to study adjective hierarchy.

Information Engineering Institute

Chinese Academy of Sciences

06/2021 - 11/2021

Research Assistant

Supervisor: Prof. Wang Xuren

Project: On Knowledge Graph Construction for Natural Language Processing

Main Work: Perform Relational Triple Extraction (RTE) and Named Entity Recognition (NER).

RESEARCH INTERESTS

I mainly focus on the study of formal syntax, distributed morphology and formal semantics, from the perspective of minimalism.

The work I am currently engaged in primarily involves syntactic research on cross-linguistic possessive/genitive structures represented by the Chinese *de* structure within the DP framework, as well as research on argument structures within the DP.

HONORS & AWARDS

2022, 2023

Capital Normal University Scholarship Award.

2022

Analysis of Social Platform Corpus Based on Deep Learning

The First Prize as Project Leader, By Capital Normal University Comprehensive Quality Improvement Research Fund.

2023

On Transfer of Level, Rising and Checked Tone in Archaic Chinese

Excellence Award as Project Participant, By Capital Normal University Laboratory Open Fund.
